

III. Amendments to the Abstract

Please amend the abstract as follows:

~~“AN AIR-BAG ARRANGEMENT AND A METHOD OF PREPARING AND
MOUNTING AN AIR-BAG”~~

An inflatable curtain (2) has having an upper attachment edge (6) provided with mounting elements (14) for mounting the inflatable curtain in a vehicle cabin for deployment beside an interior surface (38) of the vehicle cabin. A gas-flow passage (28) extends along the attachment edge, and communicates with cells (32) defined by ~~parallel~~ seams (30) in an inflatable region (4) which has a lower edge (8). Each ~~mounting~~ Mounting element elements (14) is are located between the seams (30) of a respective cell (32). The inflatable curtain is formed from an inboard layer of fabric and an outboard layer of fabric, and is rolled from the region of the lower edge (8) with the roll being adjacent the outboard layer and with part of the inboard layer forming the exterior of the roll.
